I say that the expense was great for the Agency because the work that I did this summer did not require a Summer Intern. But by talking and working with analysts I feel I know what they do and I know what I would do if I took a permanent position. The value of the internship is summarized in my wish to be an intern in OSR next summer. I believe that OSR and OER both employ "intelligence officers". On the surface the difference between the offices would be that OSR concentrates on military rather than area economics. I want to know more about OSR before deciding which office is best for me. A summer internship would offer me the opportunity to learn what OSR analysts do and to learn if I want, on a career basis, to do what OSR analysts do.

I feel privileged to have been in this Program. I am grateful for the experience and the opportunities with the Agency that I have seen. Thank you.

25X1

Sincerely yours,

Summer Intern in Economics
